ADC ANNOUNCES NEW PRODUCTS

Fall River, Massachusetts—June 7, 2007—American Dryer Corporation (“ADC”) answers the call of on-premise and coin laundry operators who now want machines with large capacities and small footprints. ADC has developed a stack 45 lb. dryer, the AD-4545, and has released its 115 lb. dryer, the AD-115, with coin controls. Both machines will be on display in Booth 2171 at the Clean Show next week.

The AD-4545 is the newest stack dryer from the company who invented stack dryers. With both the largest coin box and the largest door opening in the industry, the AD-4545 packs giant features in a frame that fits through a standard 36” door. It also features stainless steel lint screens with sides over 4” deep to trap the most lint in the industry. The AD-4545 is available with on-premise or coin controls.

The biggest trend in coin laundries today is the need for larger capacity machines to keep up with customer’s desire to do fewer loads in order to save time. And coin stores owners are discovering that they can boost their revenues with these large-capacity machines. The AD-115, new to the coin market, is the only 115 lb. capacity dryer that can fit through a standard 48” door. Its self-diagnostic multilingual microprocessor has always made this dryer a great solution for the on-premise market. Recently released with coin controls, it teams easily with the 75 lb. capacity washers that coin laundries are currently installing across the country.

“ADC’s large lineup of dryers ensures we’ve got a machine to meet every need,” said John Olsen, Vice President of Sales & Marketing at ADC. “Come see for yourself at the Clean Show next week.”

ADC will have the AD-115 with coin controls and the AD-4545 in both coin and on-premise models in Booth 2171 at Clean ’07.

AD-115 Features:

- 115 lb. capacity
- Fits through a standard 48” door
- 343,000 Btu/hr heat input and 2,100 cfm
- Self-diagnostic microprocessor with patented auto-drying feature
- Easy-to-clean lint drawer
- Reversing basket standard
- S.A.F.E. fire suppression system optional
- Available with coin or on-premise controls

AD-4545 Features:

- 45 lb. capacity x2
- Fits through a standard 36” door
- Largest door opening at 27”
- Single deluxe coin box holds 1,300 quarters
- Stainless steel, powder-coated lint screen, with 4.25” sides
- Unperforated, tapered ribs
- Pulley-driven tumblers
- S.A.F.E. fire suppression system optional
- Available with coin or on-premise controls

About ADC

American Dryer Corporation designs and manufactures energy-efficient drying solutions for commercial coin-operated, on-premise and industrial laundry markets in over 90 countries worldwide. ADC devotes its business to providing more models of dryers that perform better than any others. The result of this single-minded pursuit is well recognized by the ADC symbol, which is the hallmark that is trusted by laundries worldwide for total quality. It is this quality that has helped establish American Dryer Corporation as the world's largest sole manufacturer of commercial laundry dryers. ADC's Solaris line is available in sizes ranging from 20 lb to 75 lbs. and its traditional AD line is available in sizes ranging from 20 lbs. to 460 lbs.
